

# NOTICE OF FINAL PUBLIC MEETING

to be held by  
**RE Smiths Falls 2 ULC and RE Smiths Falls 5 ULC**  
Regarding a Proposal to Engage in Two  
Renewable Energy Projects

**Project Name:** RE Smiths Falls 2

**Project Applicant:** RE Smiths Falls 2 ULC

**Project Location:** The Project is located on Buttermilk Hill Road, in Perth, northwest of Smiths Falls.

**Dated at the Township Drummond/North Elmsley this the 27th of January, 2011**

**Project Name:** RE Smiths Falls 5

**Project Applicant:** RE Smiths Falls 5 ULC

**Project Location:** The Project is located on Armstrong Road, in Perth, northwest of Smiths Falls.

**Dated at the Township Drummond/North Elmsley this the 27th of January, 2011**

The Project applicants are planning to engage in two renewable energy projects in respect of which the issuance of a renewable energy approval is required. The proposal to engage in the projects and the projects themselves are subject to the provisions of the Environmental Protection Act (Act) Part V.0.1 and Ontario Regulation 359/09 (Regulation). This notice must be distributed in accordance with section 15 of the Regulation prior to applications being submitted and assessed for completeness by the Ministry of Environment.

This Final Public Meeting is being held to provide information on the proposed projects.

**Meeting Location:**

**Date:** Tuesday, March 29, 2011

**Time:** 6:00 pm to 9:00 pm

**Place:** Civitan Hall, 12468 Highway 15 N, Drummond/Elmsley Township

**Project Description:**

Pursuant to the Act and Regulation, the facilities, in respect of which these projects are to be engaged in, are Class 3 Solar Facilities. If approved, these facilities would have a total maximum name plate capacity of 10 MW each. The project locations are described in the map below.

The Draft Project Description Reports titled *Project Description Report RE Smiths Falls 2 Solar Project* and *Project Description Report RE Smiths Falls 5 Solar Project* described the projects as solar electric generating facilities that will utilize photovoltaic (PV) panels installed on fixed racking structures. DC electricity generated from the PV panels is converted to AC electricity by inverters. The voltage level of the AC electricity produced by the inverter is stepped-up to distribution level voltages by a series of transformers. Written copies of the Draft Project Description Reports were made available for public inspection on May 6, 2010 at [www.ontariosolarfuture.ca](http://www.ontariosolarfuture.ca), and at the local municipal office. Further, the applicant has prepared supporting documents as per Ontario Regulation 359/09.

Written copies of the draft supporting documents will also be made available for the public inspection on January 27, 2011 at [www.ontariosolarfuture.ca](http://www.ontariosolarfuture.ca), and at the Township of Drummond/North Elmsley municipal office.

**Project Contacts and Information:**
