

# NOTICE OF A PROPOSAL By Recurrent Energy to Engage in Two Renewable Energy Projects AND NOTICE OF PUBLIC MEETING

**Project Name:** RE Smiths Falls 2

**Project Applicant:** RE Smiths Falls 2 ULC

**Project Location:** The project is located on Buttermilk Hill Road in Perth, northwest of Smiths Falls.

**Dated at the Township of Drummond/North Elmsley this the 3rd of March, 2011**

**Project Name:** RE Smiths Falls 5

**Project Applicant:** RE Smiths Falls 5 ULC

**Project Location:** The project is located on Armstrong Road in Perth, northwest of Smiths Falls.

**Dated at the Township of Drummond/North Elmsley this the 3rd of March, 2011**

Recurrent Energy is planning to engage in two renewable energy projects in respect of which the issuance of a renewable energy approval is required. The proposal to engage in these projects and the projects themselves are subject to the provisions of the *Environmental Protection Act (ACT)* Part V.O.1 and Ontario Regulation 359/09 (Regulation). This notice must be distributed in accordance with section 15 of the Regulation prior to an application being submitted and assessed for completeness by the Ministry of Environment. This Public Meeting is to be a repeat of the First Public Meeting. Please note, the same updated information will be presented at the Tuesday April 5, 2011 Final Public Meeting. The Meeting will be an Open House format.

### Meeting Location:

**Date:** Monday April 4, 2011

**Time:** 6:00pm to 8:00pm

**Place:** Perth Civetan Hall, 6787 County Road 43,  
Drummond/North Elmsley Township

**NOTE:** The Final Public Meeting for RE Smiths Falls 2 and RE Smiths Falls 5 will be held on April 5, 2011, as advertised.

### Project Description:

Pursuant to the Act and Regulation, the facilities, in respect of which these projects are to be engaged in, are Class 3 Solar Facilities. If approved, these facilities would have a total maximum name plate capacity of 10 MW (RE Smiths Falls 2 and RE Smiths Falls 5). The project locations are described in the map below.

The Draft Project Description Reports titled *Project Description Report RE Smiths Falls 2 Solar Project* and *Project Description Report RE Smiths Falls 5 Solar Project* described the projects as solar electric generating facilities that will utilize photovoltaic (PV) panels installed on fixed racking structures. DC electricity generated from the PV panels is converted to AC electricity by an inverter. The voltage level of the AC electricity produced by the inverter is stepped-up to distribution level voltages by a series of transformers. Written copies of the Draft Project Description Reports were made available for public inspection on May 6, 2010 at [www.ontariosolarfuture.ca](http://www.ontariosolarfuture.ca), and at local municipal offices.

### Project Contacts and Information:

To learn more about the project proposals, public meetings, or to communicate concerns please contact:
