

NOTICE OF FINAL PUBLIC MEETING

Regarding a Proposal to Engage in Two Renewable Energy Projects

Project Name: RE Waubaushene 4

Project Applicant: RE Waubaushene 4 ULC

Project Location: The Project is located on Quarry Road in Coldwater, northwest of Orillia.

Dated at the Township of Severn this the 21st of December, 2010

Project Name: RE Waubaushene 5

Project Applicant: RE Waubaushene 5 ULC

Project Location: The Project is located on Taylor Line in Coldwater, northwest of Orillia.

Dated at the Township of Severn this the 21st of December, 2010

The Project applicants are planning to engage in two renewable energy projects in respect of which the issuance of a renewable energy approval is required. The proposal to engage in the projects and the projects themselves are subject to the provisions of the Environmental Protection Act (Act) Part V.0.1 and Ontario Regulation 359/09 (Regulation). This notice must be distributed in accordance with section 15 of the Regulation prior to applications being submitted and assessed for completeness by the Ministry of Environment.

This Final Public Meeting is being held to provide information on the proposed projects.

Meeting Location:

Date: Wednesday, February 23, 2011

Time: 6:00 pm to 9:00 pm

Place: Coldwater Community Centre
11 Michael Anne Drive, Coldwater, ON

Project Description:

Pursuant to the Act and Regulation, the facilities, in respect of which these projects are to be engaged in, are Class 3 Solar Facilities. If approved, these facilities would have a total maximum name plate capacity of 8 MW (RE Waubaushene 4) and 5 MW (RE Waubaushene 5). The project locations are described in the map below.

The Draft Project Description Reports titled *Project Description Report RE Waubaushene 4 Solar Project* and *Project Description Report RE Waubaushene 5 Solar Project* described the projects as solar electric generating facilities that will utilize photovoltaic (PV) panels installed on fixed racking structures. DC electricity generated from the PV panels is converted to AC electricity by inverters. The voltage level of the AC electricity produced by the inverter is stepped-up to distribution level voltages by a series of transformers. Written copies of the Draft Project Description Reports were made available for public inspection on June 2, 2010 at www.ontariosolarfuture.ca, and at the local municipal office. Further, the applicant has prepared supporting documents as per Ontario Regulation 359/09.

Written copies of the draft supporting documents will also be made available for the public inspection on December 21, 2010 at www.ontariosolarfuture.ca, and at the Township of Severn municipal office.
